OUR VISION

To become a leading manufacturer that is recognized as a benchmark in the global fertilizer industry through our technological infrastructure, production capacity, quality-oriented approach, and sustainability-driven vision; to pioneer innovative production technologies and become a trusted global brand preferred in international markets by delivering high value-added products that support the future of agriculture.

OUR MISSION

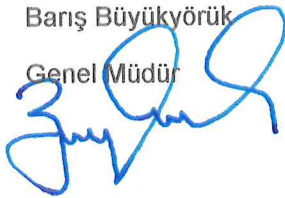

With our advanced technology production facility, high production capacity, and sustainable production approach; we aim to create lasting value for our customers, employees, business partners, and the national economy by providing reliable and innovative fertilizer solutions that enhance agricultural productivity and comply with management system standards.

We consider contributing to the future of the agricultural sector through environmentally responsible production processes and a continuous improvement approach as our fundamental responsibility.
